High School to College Committee

Scope Statement:
The Western New York Library Resources Council High School to College Committee facilitates collaboration, builds community and cultivates learning between p-12 schools libraries and academic libraries.

Charge:
- Promote developmentally appropriate information literacy instruction and collections in line with the relevant education standards, pedagogical strategies, and best practices that promote accessible, inclusive, and intercultural learning environments.
- Develop and promote a network for communication, collaboration, inter-campus visits and instruction among students, teachers, librarians, school library media specialists, and information professionals at P-12 and higher education institutions.
- Strengthen ongoing communication and collaboration among stakeholders in the instruction of information literacy through professional training, education, workshops, and continuous dialog.
- Support development and interest in critical thinking and information literacy through local programs, such as mentoring, internships, etc., to cultivate a diverse community of librarians, library staff and other information professionals.

Revised: October 2021
