Academic SHARE

Welcome to the AcademicSHARE Program!

AcademicSHARE is a courtesy extended to you by your college library. It is a program that allows you, an academic library user, access to other academic libraries and resources that may be otherwise unavailable in your own library. You may visit other colleges and universities participating in this program to utilize their collection just by presenting your current valid college ID card. You can borrow books as well as use library resources onsite.

The library you are visiting may contact your home college library to verify you are in good standing before they allow you to check out any library materials.

Remember, this is a privilege extended to you so be a good neighbor:

- Abide by all rules and regulations of the library you are visiting.
- Return all materials on time to the library from where you borrowed them. Pay any late fees and any costs to replace items you may have lost or misplaced. You are fiscally responsible for the materials you borrow.
- See the staff at your home library first. They can advise you on how and where to obtain the information you need.
